# Who I am & what we do

**Pantelis Zarkos**

I am an automotive engineer and CoFounder & CTO of Elektronio.

Since 2015 we make on demand handcrafted micro-mobility solutions, such as electric bicycles & kick-scooters for diverse application of urban transportation.

31/10/2023

# Pla.e family

A portfolio of solutions that are based on our flagship model, the electric tilting trike, Play.

## PLA.E

## ABL.E

## PLA.E+

## PLA.E TOGETHER

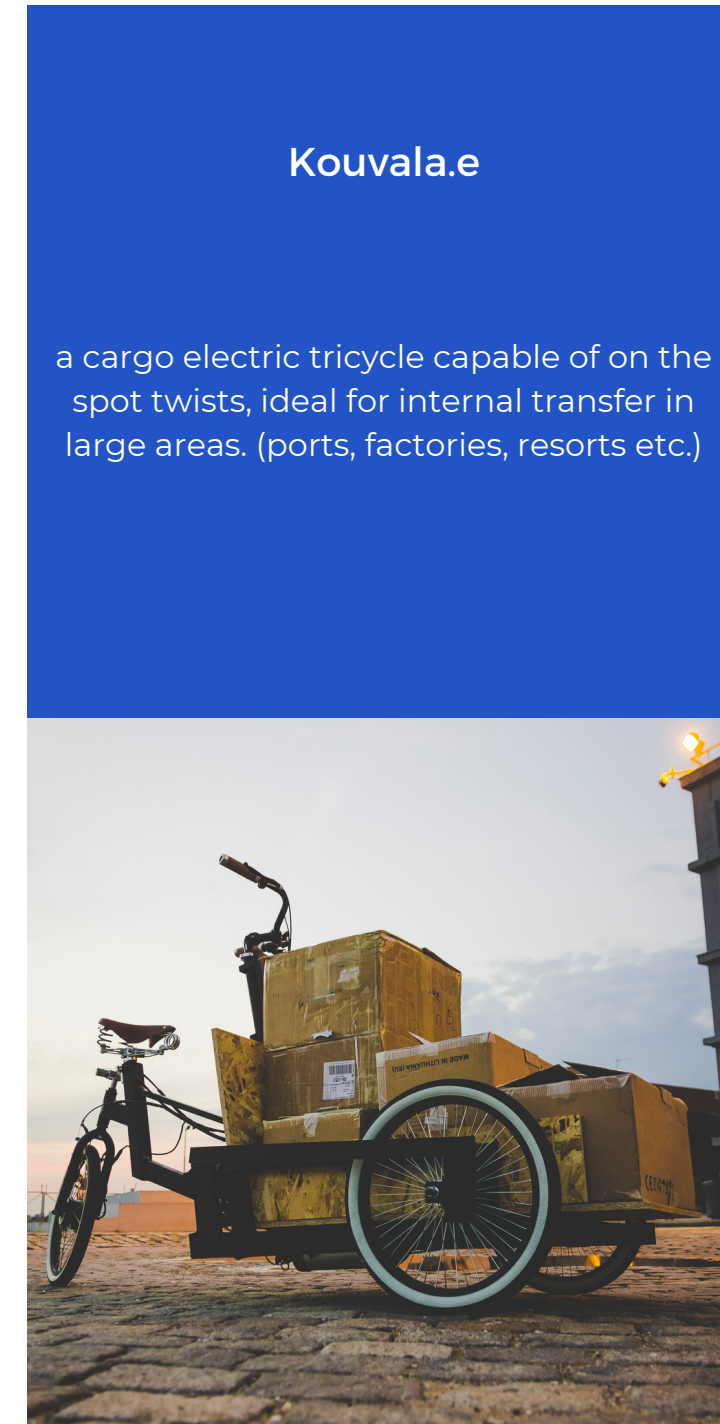

31/10/2023

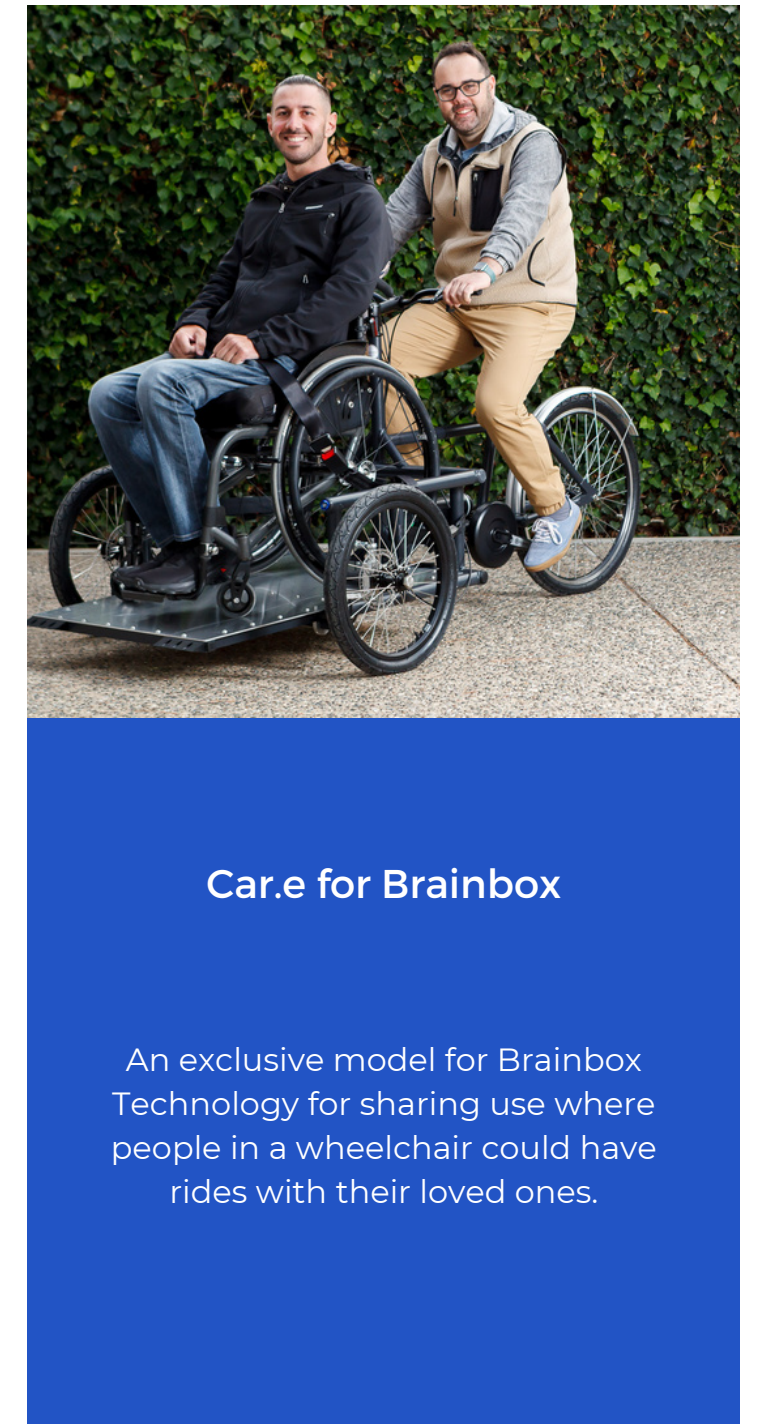

# Cargo family

This portfolio has a focus on load capacity but could supply different uses.

## Kouvala.e

a cargo electric tricycle capable of on the spot twists, ideal for internal transfer in large areas. (ports, factories, resorts etc.)

## Car.e for Brainbox

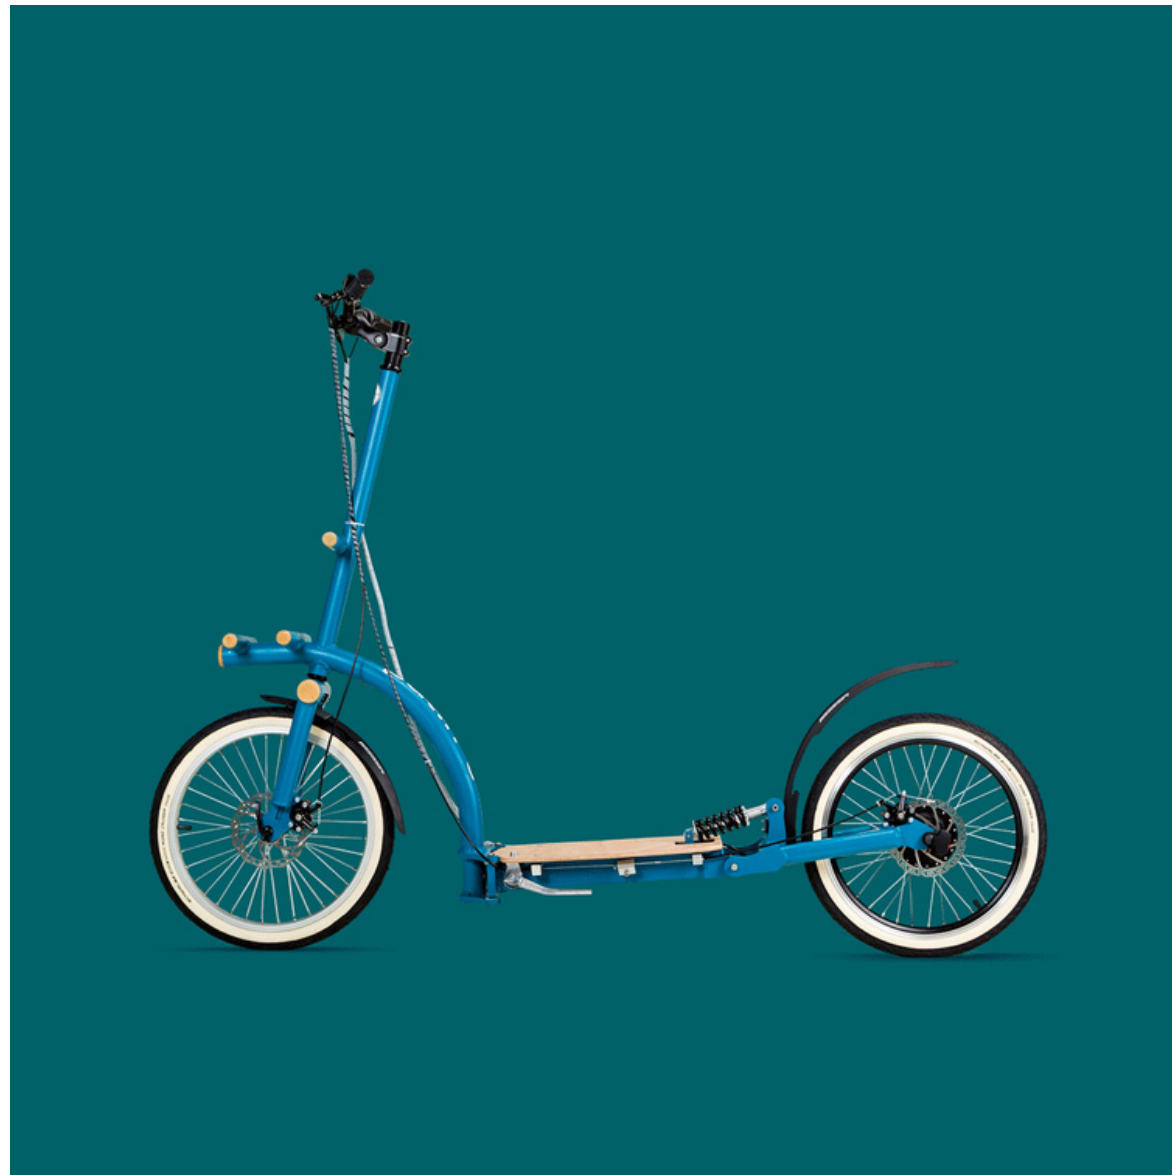

An exclusive model for Brainbox Technology for sharing use where people in a wheelchair could have rides with their loved ones.

# Commuting tools: Patin.e & E-Fragomahalo

31/10/2023

---

# Thank You

We took part in the program in order to have more methods oriented in circular economy to our making process.

**Because, we're here to reimagine  
your vehicle!**
